

# HIV CARE IN UKRAINE

## INITIATIVE | WEBINAR

24 MAY 2022

To whom it may concern,

With this letter we would like to draw your attention to the **HIV Care in Ukraine Webinar**, taking place on **24 May 2022** from 16:00 CEST | 17:00 Kyiv | 10:00 AM New York. We would like to ask for your collaboration with regards to the promotion of this important initiative.

Virology Education and the Erasmus MC Foundation #aware.hiv Ukraine are proud to work together to organize this webinar for the benefit of residents as well as refugees from Ukraine living with HIV with limited access to HIV care.

In this webinar, renowned Ukrainian speakers will share their experiences and engage in a lively discussion on the key elements of HIV care in light of the current situation. The lectures include the **current healthcare situation** in Ukraine, clinical aspects of **HIV care**, a report from the **community**, and a panel discussion with representatives from high-profile European organizations.

We would very much appreciate it if you would agree to endorse the **HIV Care in Ukraine Webinar**, and inform your members about the event. Your support, amongst others, could entail promoting by means of:

- posting the information on your website;
- circulating our promotional materials among the members of your organization;
- promoting the program through your communication channels, i.e. social media, blog posts, newsletters, etc.

In return, we would be happy to offer the following:

- include the organizational logo on our promotional materials;
- option to include promotional materials (videos, posters, flyers, and other media) on our virtual platform to bring your organization to the attention of our delegates;

We hope you will have the opportunity to help us reach potential delegates in the region and that together we will be able to make a difference.

For more information on the webinar program and other important details, please refer to the website <https://academicmedicaleducation.com/HIV-in-Ukraine>

Thank you very much for your consideration,

Marta Vasylyev, MD - Astar Medical Center, Ukraine

Casper Rokx, MD, PhD - Erasmus University Medical Center, The Netherlands

Anton Pozniak, MD, FRCP - Chelsea and Westminster Hospital, United Kingdom
